Delivery Instructions

Logistics Center Textbooks (LCS)

Notifications

Please register the delivery at:
logistiekbeheereducatief@cb.nl

Delivery Address

Inform the printer/supplier and/or handler of the correct address. We have multiple locations. The correct address for LCS is:

CB – LCS

Erasmusweg 1 (entrance Gutenbergweg)
4104 AK Culemborg

Packing Slip

Please clearly state the following information:

- Titel and ISBN
- Number of pallets per title
- (Correct) number of copies per title (if more or fewer copies are delivered than stated on the packingslip, we must recount).

Binder Packaging

- Sealed, or in a box closed with tape or straps.
- Equipped with a clear label showing ISBN, title, and quantity per box.

'Simply delivered,
quickly distributed'

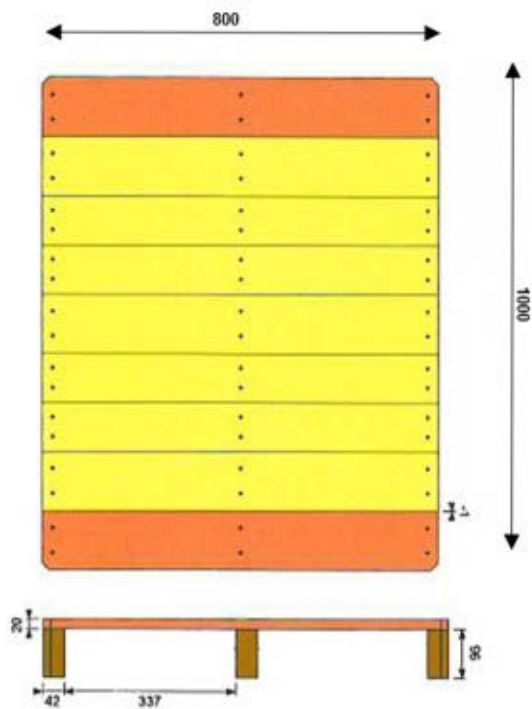

Pallets

- Books must not protrude beyond the pallet. Maximum height including pallet is 120 cm.
- The pallet must be stably sealed to prevent shifting during transport.
- We recommend using pallet boxes or equipping pallets with corner pieces and strong sealing. Anti-slip sheets are also advised to prevent the situation shown below.

CB Pallet Specifications

- Dimensions: 800 mm x 1000 mm
- Closed top deck
- Openings on the sides for the forks (openings should be on the shorter side for 2-way pallets, without slats on the bottom)
- With 4-way pallets there should be no slats on the bottom of the shorter sides

Loading Containers

- Use air bags between pallets to prevent shifting.
- Ensure pallets are loaded firmly and stably.

Preferred Loading Methods

- All three methods allow a maximum of 56 full pallets (2 layers of 28 pallets).
- Air bags must be properly filled and positioned (they should not move but fit tightly between pallet and wall or between pallets).
